## **7.8 Wandi Community Report**

Les Whiddett polled some Wandi residents and reported

1. Covid 19: Residents living in Wandi have a lifestyle that they originally chose, so coping with Covid 19 was made a lot easier with space and always plenty to occupy themselves.
2. Face book and web site: Very low knowledge of both sites, thought that a security update page would encourage residents to access both.
3. Community Issues: Lack of interest from local and state governments with little regard to roads and verges, i.e.: Wandi Drive our name sake and main entrance is a an eyesore due to work on median strips, sand and dead wood pushed onto the verge with little respect to vegetation already there. Bodeman Road has similar problems with weeds and the introduction of castor oil plants, etc being introduced by fill from road construction workers. Speed signs and roads need upgrading, in most areas.
4. Local Government Projects: Weed control, verge maintenance road re-surfacing, protection for wildlife, kangaroos etc, cycle paths and re-establish Magenup Lake nature trial. Could a designated walk and cycle path connect to existing freeway?
5. Discussion ensued on the provision of walkways and cycle paths through the rural areas of Wandi. There is provision for a bridle path on Wandi Drive which has not been developed. De Haer Road is the major road through the middle of Wandi. Mark Wells to write to COK to request consideration be given to providing a cycle path along Wandi Drive and de Haer Road.

## **8. WANDI WARBLER:**

Nil.

## **9. GENERAL BUSINESS**

1. Covid 19. Discussion ensued about the Covid 19 safety plan that is required for the reopening of the Wandi Community Centre. The WPA are unsure on whether groups are required to write their own Covid 19 safety plans. Mark Wells to email groups to advise that opening of the Centre will not occur until 1 June and to keep groups updated with information. The WPA are requesting 15 signs for the various facilities around the Wandi Community Centre.
2. Some members of the WPA committee are uncomfortable meeting outside their houses. It is most likely the next meeting will be held at the Wandi Community Centre with some members of the committee joining by Zoom. The WPA committee resolved to maintain Zoom subscription until advised.
3. It was noted that the COK has a long-term goal of providing Wi Fi coverage to community centres. It was felt the Wandi Community Centre would be low on the list of priorities. Provision of free Wi Fi to the Wandi Community Centre was acknowledged as a worthwhile goal.

## **10 NEXT MEETING: Wednesday 17 June Wandi Community Centre and by teleconference.**

Meeting closed at 8.50 pm.
